

Artist Cindy Wagner is a visual narrator, telling stories through a variety of media including photography, digital image making, mixed media, and painting. She creates her work by breathing life into old photographs by mixing the images with new material, such as buildings and insects, all placed in an antique frame.

Stroll over to the Entrance Gallery to see Cindy Wagner's artwork.

Then, create your own bug in the antique frame. Look all over this page for creepy crawly inspiration!

Antennae: used mostly for smelling and tasting

Compound eyes: lots of individual eyes so they can look in different directions at the same time

Wings: used for flying

Legs: 6 legs attached to the thorax
